

How To Survive 5th grade!

Part 1 – Planning & Brainstorming

Using a blank sheet, think back to your 5th grade school year and brainstorm the following items:

- 4-6 Classroom or Academic High Points (cool units, fun projects, useful skills learned)
- 4-6 Classroom or Academic Challenges: (hard units, difficult projects, organizational challenges)
- 4-6 Things that are available for students to participate in before or after school. (clubs, tutoring, sports, etc)
- 4-6 Tips to stay organized

Part 2-Creating Slides

Slide 1	Welcome	Your Name and presentation title
Slide 2	5th Grade Teachers	Names & subjects
Slide 3	Classroom/academic high points	cool units, fun projects, useful skills learned. Etc.
Slide 4	Classroom/academic challenges	-hard units, difficult projects, organizational challenges.
Slide 5	Activity highlights	-after school programs, sports, clubs
Slide 6	Switching classes	-things to look out for, ideas/tips to stay organized
Slide 7	Words to live by	3 pieces of advice for a successful, fun 5th grade experience.
Slide 8+ (optional)	Any additional info	Tips on teachers, field trips, etc.

Your project is to completed using google slides. Your project needs at least (7) slides containing the information in the table above. Your slides must include information, an image/picture/clipart, and some kind of graphic. This is your last project of the year, make it your best yet! BE CREATIVE, PUT YOUR TECHNOLOGY SKILLS TO THE TEST!!!
